Objective

I am a graduate of the State Polytechnic of Sriwijaya majoring in Computer Engineering that has experience in Information Technology, Communication skills, Language, and Computer. I am also an experienced software engineer in Web Development from Digital Creative.

I am focused on fields that use logic and problem-solving skills. Indeed, I am eager to be challenged to grow and further improve my IT skills.

Work Experience

CV Digital Creative, Palembang, Indonesia

December 2021 - Present

Teaching Assistant and Trainer

Core Responsibilities

- Manage Scheduled, Tasks, and Attendance for students.
- Become a Trainer to Actively Share about Web Development, Database, and API Basics with GO, Programming Algorithm.

Software Engineer Freelance

Core Responsibilities

- Handle Web-Based Projects from company clients, and integrate API Applications into Web Apps.
- Using some technology such as Codeigniter and Laravel.

Internship Experience

Dinas Komunikasi dan Informatika Kabupaten OKU, Palembang, Indonesia

IT Teams

August 2020 – September 2020

Core Responsibilities

- Managed Covid-19 Data in sub-districts in OKU and implemented it on the Covid-19 Data Website.

Education

State Polytechnic of Sriwijaya, Palembang, Indonesia

August 2018 - August 2021

A. Md. T.(3.36/4.0)

Related Course: Associate (D3) Computer Engineering

General Qualification

- Know programming languages such as HTML, CSS, Javascript, PHP, and Go.
- Have experience in technology such as Codeigniter, Laravel, React JS, and API.
- Good in Indonesian Both oral and Written, English Limited Working Proficiency.
- Have good communication skills and am eager to adapt.

Portfolio

- Online Worker Health Information System (SI-KEPO)
SI-KEPO is a collection of health data due to exposure to pesticides and is a continuation of the results of research programs developed to provide information on the impact of exposure to pesticides on the environment, farmers, workers, and other pesticide users. I have responsibility for developing the Website's Front-end, I also Collaborate with the Back-end developer to accomplish the best result for this

website. Using PHP programming language with Codeigniter framework and for the database is PostgreSQL.

- Membership Mr.PAN

Build an admin panel to handle membership in Mr.PAN using Codeigniter as a framework, with more than one user level, and have QRcode/barcode feature. Users can download a file based on chart data and also capture it in PNG when the user needs the data from the chart. I am working as a Front-end that also handle some Back-end process on this website.

- Surveillance of people with HIV/AIDS (E-ODHA)

E-ODHA is a health information data website that has data on public health services and community psychology. I am working as a Front-end that also handle some Back-end process in Codeigniter and MySQL.
